

3546E/3547E

Vertical Wall Stand

3546E/3547E Vertical Wall Stand

Designed for upright radiography, the Universal Wall Stand fits the needs of clinics and private practitioners. The extensive travel of the receptor accommodates a full range of views and patient heights.

Combine the Vertical Wall Stand with Universal's many choices of tubestands, tables and generators for a system that meets your specific needs and budget.

Standard Features:

- Floor-to-wall mounted counterbalanced stand for increased aesthetics and stability
- Dual counterweight cables for added patient and user safety
- 17" x 17" (43 cm x 43 cm) grid cabinet
- Low absorption front panel with patient centering line
- 103 Line, 8:1 fine line grid for superior film quality
- Manual cassette tray, accepts 14" x 17" (35 cm x 43 cm) and smaller film sizes, both inch and metric
- Electro-magnetic lock maintains cabinet height and provides ease of operator use
- Extensive vertical travel of 61.3" (155 cm) allows for views from skull to weight bearing
- Weight bearing studies accomplished without the use of a stool with down travel of 12.25" (31 cm) from center of cabinet to floor

Options:

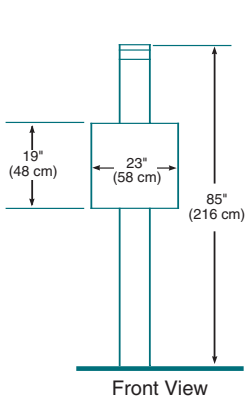

- Size sensing cassette tray, for use with PBL collimation
- Ion chamber to accept AEC capability of generator
- 10:1 or 12"1 ratio grid
- 17"x17" (43 cm x 43 cm) Reciprocating bucky
- 14" x 36" (35 cm x 91 cm) Grid cabinet or reciprocating bucky (Model 3547E)

As we strive for constant improvement, specifications are subject to change without notice.

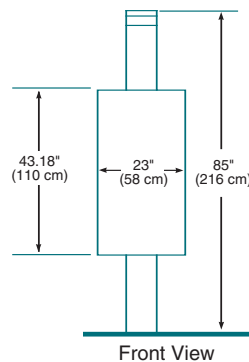

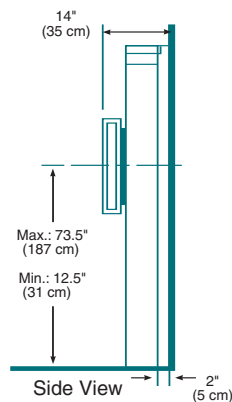

Conforms to CDRH Standards at time of shipment.
